*Includes no data facilities

**Indicates EPA is the permitting authority. Maine became an authorized State recently (Jan 2001).

***Although the State is below the 10 percent goal, the State's backlog is beginning to trend upwards

****The number of permits that needed to be issued through the reporting period to remain on target to meet the December 2001 goal.

(1) "Possible" indicates that permit deficit is within 10% of the monthly target to meet the 2001 goal or is of 5 permits or less.

Note: As of January 2001, Maine is no longer an EPA State.
